Limited Product Warranty

Envision warrants that the product is free from defects in material and workmanship under normal use and conform to the applicable Technical Specifications for the product under supply contract.

The warranty period of the product ("Product Warranty Period") is specified as follows:

Table 1. Product Warranty Period

Item		Warranty Period
Battery Rack & Container	Battery pack	2 years from date of first time installation or commissioning; or delivery term and conditions in the supply contract; whichever occurs earlier
	BMS for all levels including pack, Rack, Bank	
	HVAC system (Thermal management)	
	Battery Rack Protection units inside Rack	
	Fire Detection and Suppression System	
	Battery Rack power cables, Communication cables and all accessories and consumables of pack & rack.	
	Battery Container Combiner Panel (BCP)	
Power Conversion System	PCS (Bi-directional Inverter)	
	Step-up Transformer	
	RMU (MV Switchgear)	
	Electrical Cabinets include related low voltage distribution and AC protection units	
EMS (Energy Management System) / Scada including Local Controller at BESS unit level		

In the event, that the product fails to conform to the above warranty during the Product Warranty Period, Envision shall, at Envision's option:

- (i) repair the non-conforming or defective product, or
- (ii) provide client with a replacement for the product within reasonable time.

Envision shall be responsible for all reasonable costs of repair or replacement in connection with such non-conforming or defective product; whereas the client shall bear the costs of removing the non-conforming or defective product(s) and (re) installation of the repaired

or replaced product if the non-conformance or defect of the product is attributable only to the client. Any defects in products arising from client's operation that does not follow Envision's operation or maintenance manual, natural disaster, unauthorized change or repair, or abnormal installation environment shall be repaired or replaced at Client's cost.

Items not covered: This warranty does not cover the following conditions:

- a. Normal wear and tear or deterioration, or superficial defects, dents or marks that do not impact product performance
- b. Fail to comply with applicable laws, regulations and standards;
- c. Vibration that does not impact product performance
- d. Damage that occurs during shipping or transportation (other than shipping or transportation by Envision or Envision's subcontractor).
- e. Defects or performance issues resulting from use of the product outside the operating range set out in the specification
- f. Damage that occurs from exceeding the "Permissible instantaneous current from AC network during HVRT" as set out in the specification
- g. Defects or performance issues resulting from the commissioning, operation, maintenance, modification or repair of product in violation of the applicable Envision manual, other than by Envision or Envision's subcontractor.
- h. Defects or performance issues to the extent that Envision would have been able to prevent or limit such defect or performance issues if Envision had a remote connection to the product, in circumstances where
 - a. Envision did not have such remote connection at the required time and
 - b. The product purchase agreement states that the product owner is responsible for establishing and maintaining such remote connection
- i. Defects or performance issues resulting from abuse, negligence, accidents, client risk events or force majeure events, including but not limited to lighting, flood, earthquake, fire, war or other events outside the reasonable control of Envision
 - a. Damage or deterioration that occurs after the expiration or voiding of this warranty or that is reported more than 10 days after the expiration or voiding of this warranty or
 - b. Theft or vandalism of the product or any of its components
- j. Damage to the products that originates from other parts of the system (e.g. direct strike of thunder caused by inappropriate design of anti-strike solution);
- k. Power failure surges, storm, lightning, flood, fire, telecommunication, cable damage
- l. Damage from persons, biological activity, or industrial chemical exposure
- m. Salt mist or corrosion over and above the design specification
- n. Replacement of components or parts exceeding their lifetime
- o. Erection and installation related to personnel, machinery, equipment and vehicle; heavy equipment or tool services and related personnel

Each of the following shall permanently void this warranty

- a. Commissioning, maintenance, modification or repair of the product by anyone other than Envision, its affiliate or a Envision approved technician
- b. Removal and reinstallation of the product at a different location without the prior written consent by Envision
- c. Product identification number has been altered, manipulated, or cannot be clearly identified
- d. The claimant fails to make the product or associated parts, components and/or devices available for inspection, testing and correction

Any other warranty rights not covered in this document is out of the scope of this warranty

Exclusive remedies:

This warranty is provided voluntarily and does not constitute an independent guarantee. To the fullest

Doc. title: Envision Product Warranty Policy				 Envision
Doc. type: Product Warranty Policy.	Doc. No.:	Version No.: 1.0	Classification: Confidential	Page 5 of 5

extent permitted by law, this warranty and the remedies set forth herein are exclusive and in lieu of any other warranties, remedies and conditions, whether oral, written, statutory, express or implied (Including any warranties of merchantability or fitness for a particular purpose, use of application, and any warranties against latent or hidden defects), all of which are expressly disclaimed. To the extent that such warranties cannot be disclaimed, Envision limits the duration of and remedies for such warranties to the durations and remedies described herein

Limitation of Liability:

In no event will Envision be liable for any consequential, incidental, indirect, special, exemplary, or punitive damages arising out of or related to this limited warranty, regardless of the form of action and regardless of whether a party has been informed of, or otherwise might have anticipated, the possibility of such damages, this shall also apply insofar as such damage is incurred by a third party. In no event will Envision's liability arising out of or related to warranty claims with respect to an individual product exceed the product price. Some jurisdictions do not allow the exclusion or limitation of damage, including incidental or consequential so the above exclusion or limitation may not apply, or may only apply to a limited extent.

Obtaining of Warranty Service

The warranty provided hereunder is only applicable to the client who has purchased products. The client shall not assign the warranty without prior written consent by Envision. Notwithstanding the foregoing, the warranty provided hereunder is transferable to a subsequent owner of the products, when the product remains installed in its original location. This means, when the ownership of the product has changed, the new owner shall continue to benefit under this warranty. provided that Envision is informed in writing within a reasonable time of the sale of the subsequent client and contact details in advance. The effective transfer of the warranty does not otherwise alter the terms of the warranty provided hereunder.

In the event Envision has discontinued the manufacture of the product in issue at the time the related warranty claim is accepted by Envision. Envision may, at its sole option, replace it with a different type of product with not lower than the performance of the original product.

Warranty Service Guide

Article 1. Warranty Service Process

Please refer "PRC-ES200154_Energy Storage System Operation and Maintenance Manual"

Article 2. Recycle Process

Disposal and Recycle not included in Standard warranty

Article 3. Warranty Extension

In the event that a Defect has been rectified during the Warranty Period, the Warranty Period for the rectified component calculated from completion of the remedial work shall be the longer of:

- (i) a period equal to the remaining period of the Warranty Period for the rectified component; or
- (ii) a period of not more than 12 months after the rectification of the Defect.

The Warranty Period shall, in no case, be extended beyond more than twelve (12) months after expiry of the original Warranty Period.
