

Integration of Battery Energy Storage Systems (BESS) for Existing Ground-Mounted Solar PV Plants

Tariff Announcement

The Ceylon Electricity Board is pleased to announce the tariff for purchase of electricity from Battery Energy Storage Systems integrated with existing ground mounted solar PV plants according to the Cabinet Approval dated 16/06/2025. This tariff is effective for signing of agreements (Addendum) till 31/12/2025.

All prices are in Sri Lanka Rupees per kilowatt-hour (SLRs./ kWh)

Technology	Description	Flat Tariff (Rs./kWh)
Battery Energy Storage System (integrated with ground mounted solar PV Plant)	Export tariff at night peak (6:30 pm – 10.30 pm)	45.80

- The above mentioned price applies only to the BESS integrated with existing ground-mounted solar PV plants operating under a PPA/SPPA with CEB. Charging of the BESS needs to be done using the electricity generated from the existing solar PV plant and discharge needs to be done during the above time interval. Energy exported to the system during the above time interval (through BESS) will be metered and paid at the given tariff.
- The maximum BESS capacity (kW,AC) shall not exceed the connected Power capacity (kW, AC) of the existing Solar PV plant. Charging of the BESS shall not be done using electricity imported from the network.
- Real time communication facilities need to be established with the NSCC (National System control centre) for monitoring and control functions of the Operation of BESS.
- An addendum to the existing solar PV agreement to include the BESS shall be entered into, under which the BESS contract period shall be ten (10) years, commencing from the Commercial Operation Date (COD) of the BESS. A period of nine (09) months time is allowed for a developer to commission the BESS facility from the time of signing the Addendum to the existing Solar PV Agreement.
- If the remaining validity of the existing solar PV agreement is less than 10 years, the addendum shall be valid only for the remaining period.
- Address and contact details to obtain further information:
